Delaware River Chemical Works,
PHILADELPHIA, U. S. A.

For WHEAT, RYE, BARLEY, CORN, OATS, POTATOES, TOBACCO, BUCKWHEAT, SORGHUM, TURNIPS, HOPS, GARDEN VEGETABLES, and every Crop and Plant.
Especially recommended to growers of STRAWBERRIES, RASPBERRIES, BLACKBERRIES, and all SMALL FRUITS.
More than 13 years of regular use upon all descriptions of Crops grown in the Middle and Southern States, has given a high degree of popularity to this MANURE, which places its application now entirely beyond a mere experiment.
BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME is eminently a success as a substitute for Peruvian Guano and Stable Manure—and is offered to the Agriculturists of the Northern and Eastern States as a fertilizer that will cheaply restore to the Soil, those essentials which have been drained from it by constant cropping and light manuring.
IT is very prompt in its action—is lasting in effect to a degree unattained by any commercial manure in the market, and is afforded at a much less cost than *bought* Stable Manure, or Peruvian Guano. The labor involved in its use is far less than that of applying stable manure, while there is no risk from the introduction of noxious weeds.
☞Farmers are recommended to purchase of the dealer located in their neighborhood. In sections where no dealer is yet established, the Phosphate may be procured directly from the undersigned. A Priced Circular will be sent to all who apply.

Sewing Machines.

THE GROVER & BAKER.—THE BEST IN USE. These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. *Every family should have one. They save labor, they save time, and they save money,* and do their work better than it can be done by hand.
The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.
☞Needles and Thread will also be supplied. J. S. WITHEROW, Agent,

SABBATH IN THE COUNTRY.

The creaking wagon's in the shed,
The busy flail is heard no more;
The horse is littered down and fed,
The harness hangs above his head,
The whip behind the door.

His leathern gloves and hooked bill
To-day the woodman throws aside;
The blacksmith's fiery forge is still,
The wooden wheel of the old mill
Sleeps on the mill-dam wide.

The miller's boat is anchored where
Far out the water lilies sleep;
You see their shadows mirrored there,
The broad white flowers reflected clear,
Within the mill pond deep.

The harrow's in the garden shed,
Hoe, rake, and spade are put away;
Unweeded stands the onion bed,
The gardener from his work hath fled;
'Tis holy Sabbath day.

Upon the wall the white cat sleeps,
By which the churn and milk-pans lie;
A drowsy watch the house dog keeps,
And scarcely from his dull eye peeps
Upon the passer-by.

And sweetly over hill and dale,
The silver sounding church-bells ring;
Across the moor and down the dale
They come and go, and on the gale
Their Sabbath tidings fling.

From where the white-washed "Sunday School"
Peeps out between the poplars dim,
Which ever throw their shadows cool
Far ont upon the rushy pool,
You hear the Sabbath hymn.

Agricultural & Domestic.

[From the Germantown Telegraph.]

CULTIVATION OF INDIAN CORN.

As the time has nearly arrived for farmers to commence preparing the soil for the reception of corn, it may be useful to give a few hints connected with this important crop.
Experience demonstrates that the soil should be plowed to a depth of not less than six inches. When the ground is thus prepared future cultivation becomes comparatively easy, as but little exertion is necessary to keep the ground mellow, *free from grass and noxious weeds.* Besides other benefits resulting from deep plowing, the soil being pulverized to a considerable depth, enables the moisture to rise to the surface during a dry season, and in a wet season facilitates the absorption of water.
The corn crop, or any other product of the farm, cannot be made profitable without the due application of some manurial agent containing the constituents adapted in a general way to the soil. If this fertilizer is not made upon the premises, in sufficient quantity to meet the requirements of the farm, it must be procured elsewhere. It is therefore important in this contingency that the most valuable should be obtained, and this can best be done by buying *from reliable manufacturers of concentrated manures* which have stood the tests of repeated trials. Upon several farms in the vicinity of Germantown, Baugh's Raw bone Phosphate was used last year for corn with decided success, the yield in several instances exceeding the expectations of the purchasers. This is incontestible evidence of its value with those who used it as well as with others who observed its beneficial effects. Commencing the first year with a few hundred tons, Messrs. Baugh & Son now *manufacture from ten to fifteen thousand* tons per annum, with prospect of still more extensive sales. In order to promptly supply the demand in other States, Messrs. Baugh & Son have located offices in nearly all the principal cities of the Union.

ABOUT SEED CORN.

The *American Agriculturist* says: The selection of seed corn is one of the most important things which a farmer does at this season. Coarse cobs accompany late maturity, as a rule; fine cobs, well tipped out, indicate perfect maturity, adaptation to the season and soil, and a fixedness of character which it is important to maintain. The curing of corn takes place to a great extent after the husking, and the presence of a great, soft, moist cob in each ear gives a tendency to mold, which should be sedulously avoided. One may easily judge by the eye which ears have the smallest cobs—those which are best tipped out, which have the kernels in the closest rows, and all the rows running unbroken from end to end. These ears will not be found among the biggest round, nor among the longest, usually, but among those of medium size. A friend used to say, as he showed off his seed corn, "every ear as regular and solid as a white oak pin." And so they were, as nearly as corn ears could be, firm, close, hard and solid.

TAN BARK FOR POTATOES.

This subject is brought before the farmers of England, by a communication in the Mark Lane Express. M. R. B. Bamford claims thirty-five years' practice and experience in this matter; and has issued a pamphlet giving his method of using it, which is in brief the following: He does not cut his potatoes for setting, but sets them whole, and the largest he can select. The rows are thirty inches apart, and the potatoes are put nine inches from each other in the row. The land is plowed only eight inches deep, treads the manure firmly in the furrows, puts in the tubers, and covers them in with tan refuse, nine inches deep, instead of earthing up. In this way he reports that in 1857 he raised 675 bushels of potatoes—not a rotten one among them—to the acre, with nothing but waste tan as a covering. This is of great importance, the tan refuse being of little or no value, and if it can be put to so important and advantageous a use as in this case, it should be widely known and practised.

☞Work on the farm, when rightly directed, is full of interest, and produces satisfactory results. The farmer is not only a consumer, but he is also a producer, and therefore a benefactor of the human race. The prosperity of this country greatly depends on the development of agriculture. Paralyze this arm and what would be the result? The wheels of the manufacturer would stop, the merchant's doors would be closed, the sails that whiten every avenue of commerce would be furled, and prosperity would be at an end, not to be revived until the revival of that power which creates the wealth of the world, viz., agriculture.

THE CURCULIO.—It seems to be the belief of Dr. Trimble, Dr. Asa Fitch, Mr. Walsh, and others familiar with the habits of insects infesting our fruit trees, that the curculio breeds in the cherry; and the great bulk of the eggs so deposited will come to maturity unless artificially destroyed. For this reason cherry trees, standing alone in out-of-the-way places, should be cut down, and all punctured fruit should be destroyed.

PLANTING LIMA BEANS.

Most of the books and papers recommend planting Lima beans with the eye down, but I have had enough of that system. Last year I planted part eyes down, and part I threw in anyway.—Those I planted with eyes down came up two days later, and were not half as vigorous or productive. A good support is made by planting sunflower amongst them at the same time. Break off the lower leaves as fast as they grow, leaving but a few at the top, or they will shade the beans too much. The sunflower seeds are also valuable as food for poultry.—*Hammonton Culturist.*

PARING POTATOES.—Many persons, in preparing potatoes for cooking, pare off a thick slice from the surface, instead of digging out the eyes. Prof. Blot, in his lectures on the potato, says this skinning process is all wrong, as the strength of the vegetable lies near the surface—the starch growing less abundant as the center is approximated. The starch, near the surface, contains the nutriment—which is not more than seven or eight per cent.—the balance being mainly water.

☞Three villages in Maine have this Spring purchased from one nursery firm in that State, three thousand dollars worth of fruit trees. A commendable interest in fruit tree planting is being developed all over the country.

WASH FOR TREES.—The Horticulturist says that "one pound of potash to six gallons of water is a good wash to apply to trees on whose bodies or limbs are insects, moss, etc."

A GRATEFUL TIGER.

A caged tiger had a live dog thrown to it, one day, for its dinner. Not being very hungry, the usally fierce creature did not touch the trembling little victim. This quietness gave the dog courage, and he began to lick the tiger's eyes, which were sore. This act seemed pleasant to the wild beast, and the dog continued it, from time to time, till the eyes of this savage animal got well.—The tiger from that time took his tiny, four-legged doctor under his patronage, looked upon him kindly, and allowed him to eat when he chose of the food thrown into his den. Henceforth they lived like bosom friends.
Thus, you see, even a fierce tiger can be grateful for a little favor. How much more, then, should children learn to be grateful to their friends for the great favors they have received?—When I see boys and girls unkind and insulting to their parents, who have done and suffered so much for them, I tell them the story of the tiger and the dog, and say, "Children, don't be less grateful to your parents than the tiger was to the little dog."

I'LL KEEP 'EM AWAKE.

Near Newark lived a pious family who had adopted an orphan, who, by the way, was rather underwitted. He had imbibed strict views on religious matters, however, and once asked his adopted mother if she didn't think it wrong for the old farmers to come to church and fall asleep paying no better regard to the service. She replied she did. Accordingly before going to church the next Sunday, he filled his pockets with apples. One baldheaded old man who invariably went to sleep during the sermon, particularly attracted his attention. Seeing him at last nodding, and giving usual evidence of being in the "land of dreams," he took the astonished sleeper a blow with an apple on top of his bald pate. The minister and aroused congregation at once turned round and indignantly gazed at the boy, who merely said to the preacher, as he took another apple in his hand, with a sober honest expression of countenance, "You preach; I'll keep 'em awake!"

Anecdote of Sydney Johnson.—"M. W. M." says an exchange, sends us the following anecdote of the late General Sydney Johnson:
While Sydney Johnson resided on Oyster Creek in Texas, he kept a tame Mexican lion, to which he was very kind, and which followed him everywhere like a dog. One day, while at dinner with Gen. Lamar and Rev. Mr. Fontaine, he was feeding him with pieces of meat, and happening to give him a rare slice, with blood dropping from it, the lion seized the hand that held it, crushing it and growling fiercely with angry eyes fixed on his master. Gen. Johnson, without a cry of pain, or a single movement, looked steadily at him, and said quietly several times, "Let go, Dan."—But the animal only growled and lashed his tail, when, turning to a servant, the General told him to hand his pistol, which the frightened negro did, and General Johnson taking it in his left hand, blew out the lion's brains, but the hand was hopelessly maimed.

☞A Texas paper tells of a young couple who eloped on horseback, accompanied by a clergyman who was to marry them. The lady's father gave chase, and was overtaking the party, when the maiden called out to her clerical friend, "Can't you marry us as we run?" The idea took, and he commenced the ritual, and just as the bride's father clutched her bridle rein the clergyman pronounced the lovers man and wife. The father was so pleased with the dashing action that, as the story goes, he gave them his blessing.

☞An old woman on a steamboat observing two men pumping up water to wash the deck, and the captain being near by, she accosted him as follows: "Well, captain, got a well, eh?" "Yes, ma'am, always carry one," said the polite captain. "Well that's clever. I always did dislike river water, especially in dog days."

Large Herring.—The Alexandria *Gazette* says: A herring, eighteen and three-fourth inches long, twelve and one-half inches round the body, and two and one-fourth inches thick through the back, and weighing three and three-fourth pounds, was caught yesterday at Fowke's landing, and was *sent to this* city this mourning with a lot of other fish. This is the largest herring, it is said by old fishermen, ever caught in the Potomac.

☞The Haytien presidency goes a-begging. Gen. Saget, a negro, was chosen, but refused the honor. It was then successively offered to others, but they declined also, and the Senate was forced to declare itself a "provisional government." In that shape the "model" colored republic now remains.

☞Bullock, the Radical Governor of Massachusetts, has appointed a negro as justice of the peace. A Massachusetts town lately elected a darkey constable. There is no accounting for tastes. We suppose, however, that these things occur up there because the "white trash" are no "great shakes."

What Sumner thought of Military Government two years ago.

Charles Sumner, who is now dissatisfied with the military despotism established over the Southern States because it is too lenient to suit him, during the session of 1865 offered in Congress a series of resolutions, of which the following is one:
And be it further resolved, That a government founded on military power, or having its origin in military power, cannot be a "republican form of government" according to the requirement of the Constitution, and that its recognition will be contrary, not only to the Constitution, but also to that essential principle of our government, which, in the language of Jefferson, establishes "the supremacy of the civil over the military authority."
Such a sudden and complete change of opinion, as is exhibited by Mr. Sumner, would be astonishing were not the country so used to gross inconsistencies on the part of the Radical leaders. They seem to take peculiar delight in turning political somersaults. Because they so zealously advocate a measure to-day is no reason why they should not as enthusiastically advocate the reverse to morrow. Being destitute of true statesmanship, and utterly regardless of anything except partisan success, they are ready to adopt any expedient, no matter how dangerous and revolutionary, if it promises to insure them a continuance in power. How much longer will the masses continue to follow the lead of these political quacks, who are constantly violating the Constitution, outraging liberty and endangering all the material, political and social interests of the nation? We are glad to see signs of returning reason even in New England.

HOW THEY LOVE THEM!

The conduct of the Radicals in summarily and contemptuously rejecting soldiers appointed by the President to fill civil stations, is subjecting these hypocritical partisans to much uncomfortable criticism and animadversion. The Radical Senate recently slaughtered a gallant soldier who was nominated for the Collectorship of the Port of Philadelphia, and on Monday last rejected Colonel Maish, named as an Assessor, "who carries in his body a bullet received while fighting for his country." In the Senate on Tuesday Mr. Yates, of Illinois, sounded the note of extermination in this wise:
"The President booked soldiers who had turned renegades, and when they were rejected had filled the country with the cry that the Senate had rejected men who had fought for their country. The Senate had a right to reject nominees who were not Radical."
From the above it will be seen that politics, and not meritorious services in the field, is the passport to favor in the Radical Senate. No matter how bravely a man fought—unless he is tarred with the Radical stick he must "walk the plank." Oh! how they love the soldiers!—*Age.*

ANOTHER SOLDIER SLAUGHTERED.

On Saturday last the Radical Senate rejected the nomination of General Peter Lyle, whose name was sent to that body to fill the position of Collector of the Port of Philadelphia, now vacant. General Lyle was appointed by the President without any solicitation on his part. He is widely known in this community as a gentleman of the strictest integrity, and possessing business capacity of the highest order. He is loved, honored, and respected by all who know him. He was a gallant soldier in the late civil war, and "stood in the trenches" when the Sumners and Wades and Chandlers and Forneys were reposing at home upon beds of ease and luxury. Yet he fell before the partisan blows of a corrupt and contemptible cabal, who are now driving the nation fast and surely on to destruction. This is the fourth rejection for the position of Collector of our Port. The great mercantile interests of this community in the meantime are left to suffer, because the President will not appoint a fanatical negro-worshipper.—Don't let us hear anything more about the love of the Radicals for the soldiers. It is a bald and destestable lie. There is not a veteran in the land, no matter what his scars or services, who would not be set aside, insulted, and trampled upon, by these mean and petty tricksters in their insatiable thirst for public plunder. The day of reckoning, however, is fast approaching, and we predict that the people of Philadelphia will, before many months, resent in a proper and becoming manner the gross insult that has been thrown upon one of her honored sons by the Radicals in the Senate of the United States.—*Philadelphia Age.*

READING OUT!

The New York *Tribune* of Monday says:

"Men who hold that none but Whites should vote may be well enough in their place; but there is no room for them in the Republican party."

We know a good many Republicans who have too much respect for their own color to support negro suffrage. These are among the men whom the *Tribune* reads out of the Republican party, but we rather guess they will manage to stand it. There is still a white man's party left, and as it is an honest, patriotic and constitution-loving organization, all who believe that "a white man is as good as a nigger" can safely and conscientiously take position on its wide and conservative platform. Many of those alluded to by the *Tribune* have already made the change—as witness Connecticut—and the good work will most assuredly go on until the leaders of the present Radical, negro-equality party shall be swept into the deepest and blackest oblivion.

EFFECT OF RADICALISM.

RICHMOND, VA., April 22.—To-day a negro insisted on riding upon a street car. The conductor put him off, when several hundred negroes gathered and insisted that the man should ride. A strong force of police came up, and the man was arrested. Much excitement was caused at the time.

This is one of the first fruits of Senator Wilson's incendiary harangues to the negroes in Richmond.

It seems to be the settled policy of the Radical leaders to incite the negroes of the South to such outrages as will *compel* the whites to defend themselves against them in some summary way. This done, these demagogues hope to excite Northern prejudices, by one-sided and lying stories, to the point of reviving all the old sectional hatreds, and thus keep themselves in power. Radicalism can live only in agitation and turmoil, and its leaders, knowing this, are determined that the country shall have neither rest nor peace.

Order-loving and patriotic white men of the North, of whatever party, open your eyes in time to the true intents and purposes of the scoundrelly demagogues who are bent only upon filling their own pockets at the expense of the peace and prosperity of the nation.

ADJOURNMENT OF THE SENATE.

The United States Senate, the rump of the Rump Congress, adjourned on Saturday week. During the extra session it presented to the country a most humiliating spectacle. The Senate Chamber was little else than a sort of exchange for the sale of offices. No principle governed their actions or confirmations. It was a struggle in which each greedy Senator grabbed whatever he could get. They were always ready for a dicker of any kind, if something could be made by it. The character of nominees had nothing to do with their chances of confirmation. Many of the bravest and best soldiers of the Republic were summarily slaughtered because the Radical Senators could make neither money nor political capital for themselves by voting for them. Every Radical member had his private axe to grind, and it was made a rule not to interfere with any little arrangement which any one might have set up. Honest men of every party were disgusted, and all wondered at the evidences of corruptness exhibited by what was in better times the purest and most honorable legislative body the world ever saw.

☞ An election was held in the State of New York on Tuesday for delegates to a Constitutional Convention. The vote was light, as was generally expected. The Republicans in the Legislature ordered the election to be held by *Senatorial* districts, (outrageously gerrymandered,) *in order to insure* a large majority of their own party in the Convention. The Democrats, indignant at this infamous action, took little or no interest in the canvass, in some districts running no candidates at all, while in several their strongest men declined the nominations that were tendered them. But, notwithstanding all this, our friends made noticeable and gratifying gains. The present Senate of that State stands twenty-seven Radicals to five Democrats. At the election on Tuesday the Democrats carried eleven districts—a handsome increase. The Convention will be composed of sixty Democrats and one hundred Radicals. In New York city the Democrats had everything their own way, though thousands of them did not take the trouble to vote. The Constitution will have to be submitted to the people, and if the Radicals incorporate their negro-equality ideas in it, it will meet an overwhelming defeat.

☞ Connecticut, "the land of steady habits," has alarmed the Radicals by overthrowing the 11,000 majority of a few years ago. Well may they be alarmed; the people are becoming disgusted at the vindictive hate of Radical Congressmen, whose ideas of statesmanship consist not in binding up the wounds of a bleeding country, but in keeping them festering. If the charlatans ever prayed, their prayer would be akin to that of the old half-pay Captain, in Scotland—*"Gude Laird, gie us eternal war."* If these crazy destructives were the only people who suffered from this folly, the folly itself would be less a subject of regret.

☞ A contemporary of the Radical persuasion announces that "Mr. Sumner has written a letter giving his views that the discriminating word 'white' should *at once* be stricken from *all* the State Constitutions." Well, suppose he has! We should like to know what has he to do with the State Constitution of Pennsylvania? Are Pennsylvanians willing to permit this impertinent meddler to make their laws and alter their Constitution to suit his fanatical schemes? We shall see!

☞ The Radicals of Philadelphia are putting into operation a scheme to force negroes into the common schools. The shoddy aristocrats do not send their children to the free schools, hence they will not be brought upon the same benches with the negro children.

A TOTTERING PARTY.

The speedy downfall of the Radical party is becoming so manifest that even its own leaders begin to confess the fact. The negro issue, upon which it sprung into existence, is dead, and the "cohesive power of public plunder" which made it a compact and victorious organization during the last few years, has lost two-thirds of its influence with the close of the war. Having neither principles to stand upon, nor rich jobs to reward those who fawned upon its measures that thrift might follow fawning, it has no other course left than to follow the example of its illustrious prototypes, the old Federal, Whig and Know Nothing parties, and quietly give up the ghost. This opinion is borne out by the following extract from a letter from Washington in the *Anti-Slavery Standard*, written by Wendell Phillips, the great prophet and fore-runner of Radicalism.—He says:

"The seeds of dissolution have been sown in the Republican party. Perhaps I should say that the party always contained the elements of its own destruction, and that it only required the provocative circumstances to develop them. At any rate the development is visible to the common eye, as it has long been seen by those whose habits of close observation have given to their mental vision a clear insight.

"The debate upon adjournment and impeachment was the forcing bed in which this seed sprouted. A clever politician here, said to-day that the party would have split if Congress had remained here two weeks longer. The division I announce is only a question of time. The struggle for the next few months is really *to be* which wing shall remain in possession of the Republican organization. Politicians naturally conclude that the one retaining it will have a better start, in that it will have the prestige of success. For my part, I believe it may be more advantageous, so far as purity of action is concerned, to *organize anew and take a fresh start.* Success will, in all probability, be built up on a firmer basis, if the Radicals begin without traditions or policy. The Connecticut election will widen the division. On the whole, it is conceded here that the Republican defeat will help the Radical wing."

The statements of Phillips are borne out by the following extract from the Washington correspondence of the *Springfield Republican*. Writing about the Butler Bingham *fiasco*, the letter writer of that paper says:

"These men, Butler and Bingham, are mortal enemies henceforth, and I think for the present Butler will let the matter rest. The sentiment of his political friends is very strong on the subject. The quarrels among Republicans must stop! I believe if Congress were to remain in session all summer that the Republicans would quarrel so that there would be two parties. The "impeachers" already stigmatize a large class of their fellow-Republicans as little better than Copperheads, and the more cautious Republicans look upon some of the extremists as being fully as dangerous as Johnson. Ashley, Butler and that class look upon Bingham and Senator Wilson, and Spalding; etc., as *half-way Johnson men.* On the other hand, Wilson, Bingham and Spalding unquestionably look upon Ashley and Butler and Covode as reckless, dangerous men."

POSTING THE BOOKS.

On Thursday, under the inspiration of a telegram from the West, the *Press* thus writes:

We set off the town of Chicago against the State of Connecticut.

Now let us see the character of the "set off." In the Chicago *Times* of the 18th instant, we found the following:

THE ELECTION YESTERDAY.

Two years ago Mayor Rice was elected by a majority of 5,629. In November last, the Republican majority in the city was 6,867. Mayor Rice was re-elected yesterday by the reduced majority of 3,-938. This is a very handsome Democratic gain, certainly.

But even a better result than this is *the gain of four Aldermen by the Democracy*, viz: Comisky in the Eighth Ward, Casselman in the Twelfth, Schinz in the Fourteenth, and Mansur in the Sixteenth.

Altogether, the Democracy of Chicago have reason to be proud of their work in this contest. Next time, they will do better still, and they may look forward to complete triumph in the great trial of November, 1868.

Instead of a "set off," the election in Chicago seems to have been something of a "set back" for the Radicals. Look at the figures:

Radical majority in 1865,	5,629
Radical majority in 1866,	6,867
Radical majority in 1867,	3,938!

To which must be added a Democratic gain this year of four Alderman. We are afraid the Radical books will never balance under the new system of "set offs" invented by our neighbor of the *Press*.—*Age.*

☞ The attempts of the Radicals to explain the cause of the great Democratic victory in Connecticut are comical. Every one of them has a *different* excuse, varying according to the disposition of the person and the locality he hails from. Among all the reasons, though, none have yet hit upon the real one, viz: that the people are growing tired of Radical dominion, and have resolved upon ridding themselves from it in the future. As it will interest our readers to see the opinions of their opponents, we have been at great pains to make a summary of the Radical editorials on the subject which have reached us, and present it below as a reliable digest of the whole:

☞ The Radical cant in Connecticut, just before the late election, about the *sympathy of Radicalism* for laboring men, the World thinks, is charmingly and consistently illustrated in the course of the Radical manufacturers at Rockville, who have discharged seventy men from their mills for voting the Democratic ticket. The quarry men in Portland who voted the Democratic ticket have been notified by their Radical "masters" that their services "will not be needed for a year to come."—The result of this movement was that a thousand men threw down their picks and drills, and refused to work till their proscribed comrades were permitted to resume labor, and at latest accounts the quarry works in that town had ceased. Let us hear no more cant, even from the Tribune, about "free labor" and the "All-rights-of-all" party, which Wilson declares is based upon "the principles of eternal, imperishable justice."

☞ All the indications in Europe point to a war this summer between France and Prussia.

TOWN AND COUNTY AFFAIRS.

PREACHING.—There will be preaching in the United Presbyterian Church in this place, on the first, second and third Sabbaths of May next, by Rev. John Jameson, of Kittanning.

A "SEASONABLE" DIFFERENCE.—A Galveston (Texas) paper of the 14th announces ripe blackberries and plums in that market. *Here* "winter still lingers in the lap of spring." As we write, Wednesday, *snow is falling.* "Look out," as the almanacs say, for ripe blackberries and plums in about *three months.*

ODD FELLOWS.—Friday last was observed as a day of thanksgiving by the Odd Fellows throughout the United States. The members of the Order here assembled in their hall in the evening, when a number of speeches appropriate to the occasion were made—the exercises closing with prayer and the singing of a doxology. The proceedings were of a very interesting character throughout.

THE COLLECTORSHIP.—The *Sentinel* understands that C. W. Ashcom, Esq., recently appointed Collector of this Revenue District, has not yet been commissioned, but expects to take possession of the office on the 1st of May. It is his intention to make an official visit to the counties composing the District, and he may be expected to be in this county the first week in May.

IRON ORE.—We learn that iron ore has been discovered on the farm of J. W. Baughman, in Mountpleasant township, this county. Thorough examinations are being made, with a view of testing its quality and quantity.

We are told that iron ore (magnetic) also exists on the farm of Peter Comfort, in Franklin township, and that a contract is about being, or has been, made by the new furnace company at Wrightsville for its use.

It would not astonish us to see considerable mineral wealth developed in this county in the next few years. Thomas McKnight was laughed at for prospecting for coal in the South Mountain. Stranger things than its actual discovery would be, have happened.

WOMAN DROWNED.—We regret to learn that the wife of Mr. Joseph Harman, residing on the York Turnpike, about seven miles from Gettysburg, drowned herself in a rain vessel, on Monday night last. She had been for some weeks laboring under great depression of spirits, caused, it is thought, by previous religious excitement, and her friends were not without apprehension. During Monday night she was missed from her bed, and, upon search being made, her body was found lying headforemost in a rain vessel near the house. Life was extinct.

The deceased leaves a husband and three little daughters to mourn her melancholy end. She was a loving and dutiful wife, an affectionate mother, and a kind neighbor. Highly respected in life, her loss is deeply deplored. Some weeks previous to death, her mind became impaired in regard to her future state, though rational on all other subjects.

On Wednesday the remains of the deceased were buried in New Oxford. Though she belonged to another communion, the funeral services were performed by Rev. W. F. P. Davis, of the German Reformed Church, who spoke appropriately and impressively from the text, Matt. 27: 46, "My God, my God, why hast thou forsaken me?"—and improved the occasion by warning his hearers against all undue excitements, whether of a religious or any other character.

CHILD DROWNED.—A little daughter of Mr. Joshua Ceas, tanner, in Fairfield, was drowned in one of the vats of the tan yard on Saturday week. Attention was first attracted by her bonnet being seen floating on the water, and, on searching, the body of the child was found in the vat. It is supposed that she was playing in the yard, and accidentally fell in. Her age was about three years. A sad death, indeed.

NEW OXFORD.—The spirit of improvement is still rife at New Oxford. Mr. John Barnitz has commenced the erection of a new frame house; Mr. Zouck is also to begin a new building; Mr. Miller is improving the Doll property, and has opened a drug store in the main room on the first floor; Mr. Stock has his machine shop nearly ready for occupancy; Mr. Gitt's and other houses, commenced last season, are being finished. Other improvements are in contemplation, "Keep the ball rolling."

AN ACT TO RECORD SOLDIERS' DISCHARGES.—The last Legislature passed a law requiring the Recorders of the several counties to place on record the discharges of soldiers, so that in case of their being lost, or destroyed, the proofs will still remain on the county records. The following is the act as passed:

SECTION 1. *Be it enacted*, &c., That the Recorders of Deeds in the several Counties of this Commonwealth are hereby authorized and required to record all final discharges of commissioned and non-commissioned officers and privates, upon application being made to them by the holders of the same, and that the recording of the same shall not be subject to the payment of the State tax.

SHAD IN THE JUNIATA.—On Tuesday morning shad were caught in the Juniata at Newport, thus ending all doubt in reference to the passage of shad up the Susquehanna and its tributaries. The sight of an old-fashioned Susquehanna shad here would be an inviting novelty. Who of our fish dealers will be "first on the sod" with them?

FRANKLIN COUNTY.—The Democratic Committee of Franklin county, on Friday week, made the following appointments of Delegates to the State Conventions:

Judicial Convention.—Sentorial—for Franklin and Adams—Hon. F. M. Kimmel, Representative—Hon. J. McDowell Sharpe.

Mass Convention.—Senatorial—James B. Orr. Representative—Jacob S. Loose and Hon. G. W. Brewer.

CALL ACCEPTED.—The Rev. Cyrus Cort, of the Altoona Mission charge, has accepted the call of the new charge of the German Reformed Church, recently organized out of a part of the Upindstone Hill charge, composed of the Fayetteville and Mt. Alto congregations, and has entered on his new field of labor.—*Chambersburg Spirit.*

☞ On the 9th of the coming month, Speaker Colfax will deliver his lecture, "Across the Continent," in Gettysburg. Tickets 50 cents. The lecture was delivered in Chambersburg on Saturday evening week, and is highly spoken of by the papers of that place. The *Spirit* says:

Colfax's Lecture.—Pursuant to an announcement, the Hon. Schuyler Colfax delivered his lecture entitled "Across the Continent," on Saturday evening last, in Repository Hall. A large audience was in attendance, and the lecture was quite entertaining and instructive. The Speaker's descriptive powers are very fine, and the manner in which he depicted the scenes and incidents of the great journey over the mountains and plains of our vast Pacific domain was thrillingly interesting. His peroration was particularly fine. His style of speaking is a little too rapid to be impressive, but yet he is a man of marked ability and power. The audience generally, so far as we have been able to learn, were well pleased with the entertainment.

POCKET BOOK STOLEN.—J. McD. Sharpe, Esq., had his pocket-book, containing about one hundred and thirty dollars, stolen from his office on Thursday last. Mr. S. had been at his safe, which is in his back office, and laying his pocket-book on the safe, went into his front office for a short time, when on his return the pocket-book and its contents were gone. There were several persons in the office at the time, and among them Jesse Carr, residing near Fayetteville, for whom Mr. Sharpe was conducting a suit. He being suspected of having committed the theft, was arrested and entered bail for his appearance at court.—*Chambersburg Repos.*

DIVIDEND.—The Hanover Branch Railroad Company has declared a dividend of five per cent. on the capital stock, clear of all taxes, payable on or after May 6. The affairs of the road are in a flourishing condition.

☞ Col. McClure, of the Chambersburg *Repository*, accompanied by his wife and son, will make a tour, the coming summer, across the Rocky Mountains, taking Utah, Colorado, Idaho, &c., in the route. They will start in a few days, and expect *to return in the autumn.*

BIG CATTY.—A lad at Wrightsville, a few days ago, caught a cat-fish measuring twenty inches in length and five and a half inches across the head. That beats anything yet taken in Rock creek—slightly.

MORE TROUBLE.—Thousands of our people are weekly dying from the ravages of Indigestion, Dyspepsia, and various diseases of the Stomach and Bowels. The value of Coe's Dyspepsia Cure should be known to the world. It has saved thousands from an early grave.

☞ Row & Woods are constantly receiving new Goods—extra cheap and extra good. They invite all who want extra bargains.

Large Black Snake Killed.—One day last week, while two boys were hauling wood from the Pigeon Hills, about two miles and a half from this place, their horse tread upon a large black snake lying in the road. The reptile immediately coiled itself around one of the forelegs of the animal. The old fellow, instead of becoming frightened, commenced to cut at the snake with his disengaged leg, and soon succeeded in removing it. After having cut it nearly in two in several places, it was then attacked by the boys with clubs and killed. Upon measuring, it proved to be eight feet five inches long.—*Hanover Citizen.*

THE NEW JURY LAW.

The following is a copy of the new Jury Law, passed by both Houses of the Legislature:

BURIED ALIVE.

A friend gives us the account of a most terrible case of the burial alive of a handsome young lady at Jacksonville, Ill. Some time last summer a young lady of seventeen years of age, suffering with the toothache, went to bed with a small phial of chloroform for the purpose of quieting her teeth. In the morning she was found to all appearances dead, which was confirmed by the opinions of several physicians who were called and examined her body. She was then buried. A few days since her relatives were about to remove from Jacksonville, having located in another State, and had the remains of the young lady exhumed, for the purpose of taking them to their new home. Curiosity prompted them to open the coffin, when they were horror stricken on finding the corpse turned over, both hands full of hair, and her clothing torn to shreds, revealing the horrible truth that the young lady had been buried alive. The chloroform had placed her in a deep trance, the awakening from which was in her coffin and grave. The lady was engaged to be married at the time of her supposed death. A more heart-sickening case we never remember to have read or heard of.—*Indianapolis Journal.*

An Able Protector.

If you have a lame side, a sick headache, heavy cough, or cold, or a general nervousness, one moderate dose is sufficient—may as a brisk purge, four to six pills; as a laxative, one or two pills, to be taken at night on retiring. They are admitted to be the best protector against every form of disease. They so quietly restore the Stomach, Liver, and Blood, Diseases of the Kidneys, and all secretions, and exertions of the whole system in unhealthy to a healthy condition, renovate and repair the injuries and wastes of the entire organism—vegetable ingredients throughout—no minerals whatever. Persons feeling dormant, having no ambition, the young of both sexes, who are growing fast and complaining of no appetite, of broken rest and a cold reluctance to business, will find them extremely efficacious. The married and single of the opposite sex, suffering from lost strength, and whose systems seem deranged, should invariably use Radway's Regulating Pills. So in all Diseases of the Bowels, in the purifying of the Blood, so essential to the promulgation of Health. They purge mildly, are coated with sweet gum, making them agreeable to the palate, and are free from smell. As they are at all times useful, no family should be without them.

Sold by Druggists. Price 25 cents per box.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy as surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this Sarsaparilla, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often soon cured by this Extract of Sarsaparilla.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn from Disordered stomach, Pain, or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Neuralgia, and for a Dinner Pill.

They are sugar coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

A SUBSTITUTE FOR CALOMEL.

These Pills are composed of various roots, having the power to relax the secretions of the liver as promptly and effectually as blue pill or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious affections in general.

A Young Lady

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the surface it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. OHIO AND BUCKEYE PATENTS.

At the great trial of Reapers and Mowers at Auburn, N. Y., in July last, by the New York State Agricultural Society, this Machine was awarded the preference over all others in Class No. 5. This class was the most important of any, as it embraced Mowing and Hand and Self-raking Reaper in the same Machine.

This Machine has been awarded Medals and first Premiums by the Pennsylvania and Iowa State Fairs, and by hundreds of County Fairs in all parts of the country. This Machine took the first Premium at the Adams County Agricultural Fair held at Bendersville, September, 1866. Also,

BALL'S OHIO & RUSSELL'S SCREW POWER.

Both first-class Machines, having sold a number of these Machines in the last three years. They have given general satisfaction wherever used. We ask farmers to call and examine these machines before purchasing elsewhere, as they will be able to make a better selection. We could produce quite a number of certificates from some of the best farmers in the county, but deem it unnecessary, as we *warrant these machines to give satisfaction* with a fair trial, or no sale. Insured for one season.

Extras always kept on hand. We have made arrangements to have repairing done when needed at any time and on moderate terms.

With the above we have for sale a number of valuable Farming Implements.

SULKY CORN PLOUGH,

Can be used for ploughing and cultivating corn—finishing one row at a time. Can also be used for loosening up corn ground or putting in seeding. By raising the front shovels it can be used for marking out corn ground—marking two rows at a time. A Cornplanter can also be attached, planting two rows at a time.

REAPERS AND MOWERS.

Hoffman' Patents.

The No. 1 Machine has two Driving Wheels, Hinge Joint and Folding Bar, making it very convenient to move from one place to another; is very simple in its construction, extremely light draft and durable; cuts 4 feet 10 inches in grass and 5 feet 2 inches in grain; is a Self-Rakes and Side Delivery, and is capable of cutting a whole field without binding a sheaf, and does the most satisfactory work.

This Machine can also be used as a Hand Machine without injuring its qualities as a Reaper. The Machine is warranted to cut Grass as well as any Single Mower that cuts the same width. It is a strong two-horse Machine—three or four can be used, if required, in hilly ground.

GREAT IMPROVEMENTS have been made for the coming season.

The Machine is also perfectly balanced, no weight on the horses' necks in Mowing or Reaping.

No. 2 is a light two-horse Machine, and is differently constructed, cutting on the right-hand side; and in front of Driving Wheels is a Self-Raker and Side Delivery. The difference in the width of cut is 6 inches.

The shifting lever and the raising and lowering levers are both at the driver's right side, and with his right foot upon a pedal and his left upon a foot-step, he has the power and control of the whole machine, he can raise or lower the platform from three to fourteen inches, can throw the machine out of gear, and regulate the rake so as to make the sheaves large or small, and all this at the same time and without retarding the motion or speed of the machine.

All Machines warranted to give satisfaction! For further information apply to

SHIREMAN'S

NATIONAL SELF-DISCHARGING STEEL SPRING TOOTH

Horse Rake!

Patented September 9th, 1862, and Re-issued December 6th, 1864.

This Rake is an Independent Steel Spring Tooth Rake, and has proven itself to be the most perfect HORSE RAKE now in use. With this Rake the Horse does all the work, both the Raking and Discharging, by the driver moving a lever a few inches, which throws it in gear, and as the horse moves forward it raises the teeth and discharges its load, and then shifts out of gear itself, the teeth dropping down ready to rake again. By this operation it is easily understood that the Raker *has hardly any work to do at all!*

Important improvements have been made of late, making it very simple and durable in its construction. Thousands of them have been sold in the few last years, and given the best kind of satisfaction.

Brinkerhoff's

CORN SHELLER, SEPARATOR AND CLEANER.

The undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, *separates and cleanses*, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

THE
PERUVIAN SYRUP
IS A PROTECTED SOLUTION OF THE
Protoxide of Iron,
a new discovery in medicine which
STRIKES AT THE ROOT OF DISEASE,
by supplying the Blood with its VITAL PRINCIPLE, OR LIFE ELEMENT—IRON.

This is the secret of the wonderful success of this remedy in curing

DYSPEPSIA, LIVER COMPLAINT, DROPSY, CHRONIC DIARRHŒA, BOILS, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Disease of the Kidneys and Bladder, Female Complaints, and all diseases originating in A BAD STATE OF THE BLOOD, or accompanied by DEBILITY, or a LOW STATE OF THE SYSTEM.

Being free from Alcohol in any form, its energising effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor and new life into all parts of the system, and building up an IRON CONSTITUTION.

DYSPEPSIA AND DEBILITY.

From the Venerable Archdeacon Scott, D. D.
DURHAM, Canada East, March 24, 1865.

* * * "I am an inveterate Dyspeptic of more than 25 years' standing."

* * * "I have been so wonderfully benefitted in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me."

One of the most DISTINGUISHED JURISTS in New England writes to a friend as follows:

"I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made A NEW MAN of me; infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years."

An EMINENT DIVINE of Boston, says:

"I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

☞THOUSANDS have been changed by the use of this remedy; from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

WISTAR'S BALSAM
OF
WILD CHERRY
HAS BEEN USED FOR NEARLY
HALF A CENTURY,
WITH THE MOST ASTONISHING SUCCESS IN CURING
Coughs, Colds, Hoarseness, Sore Throat, Influenza, Whooping Cough, Croup, Liver Complaint, Bronchitis, Difficulty of Breathing, Asthma, and every affection of
THE THROAT, LUNGS, AND CHEST.

CONSUMPTION,
which carries off more victims than any other disease, and which baffles the skill of the physicians to a greater extent than any other malady, often
YIELDS TO THIS REMEDY
when all others prove ineffectual.
AS A MEDICINE,
rapid in relief, soothing in effect, safe in its operation,
☞IT IS UNSURPASSED!☜
while as a preparation, free from noxious ingredients, poisons or minerals; uniting skill, science and medical knowledge; combining all that is valuable in the vegetable kingdom for this class of disease, it is
INCOMPARABLE!
and is entitled to, merits and receives the general confidence of the public.

SEYMOUR THATCHER, M. D., of Herman, N. Y., writes as follows:

"WISTAR'S BALSAM OF WILD CHERRY gives universal satisfaction. It seems to cure a Cough by loosening and cleansing the lungs, and allaying irritation, thus REMOVING THE CAUSE, instead of drying up the cough and leaving the cause behind. I consider the Balsam as good as any, if not the best, Cough medicine with which I am acquainted."

The Rev. JACOB SECHLER, of Hanover, Pa., well known and much respected among the German population of this country, makes the following statement for the benefit of the afflicted:

Dear Sirs:—Having realized in my family important benefits from the use of your valuable preparation—WISTAR'S BALSAM OF WILD CHERRY—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health: I have, in my individual case, made frequent use of your valuable medicine, and have always been benefitted by it.

Jules Jared's
"EMAIL DE PARIS,"
THE NEW
Beautifier of the Skin.
TESTIMONIALS FROM CELEBRATED LADIES.

This secret of beautifying the skin being known only to Messrs. Jared & Rene, they honorably state that it differs from all other preparations. It gives to the most harsh and freckled skin both the texture and color of polished Ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or blackworm specks, and is especially successful in smoothing out the marks left by the smallpox.

The agents of "L'Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as
Signora RISTORI,
M'dlle FELICITA VESTVALI,
Miss MAGGIE MITCHELL,
Mrs. D. P. BOWERS,
LUCILLE WESTERN,
Madame PONISI,
Mrs. EMMA WALLER,
LUCY RUSHTON,
NOEMIE DE MARGUERITTES,
Miss A. PERRY,
and many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.

The beautiful Lucille Western says:

"I find that the 'Email' produces all the brilliancy of rouge and lily-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin."

The magnificent Vestvali says:

"I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth."

Miss Maggie Mitchell says:

"I have tried the skin beautifier, 'L'Email de Paris,' and found that it instantly imparts a natural bloom and freshness to the complexion."

"Jared's Email de Paris" is used as a delicate beautifier of the skin for Theatre, Saloon or Ball Room, by the most refined and scrupulous ladies, producing all the beautifying effects of rouge and lily-white, without their vulgar glare or injury to the skin.

The World Astonished
AT the Wonderful Revelations made by the great Astrologist, MADAME H. A. PERRIGO. She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and position of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of the above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Reparator Capilli.
Throw away your false frizzles, your switches, your wig—
Destructive of comfort, and not worth a fig;
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or restore the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, post paid, together with a receipt for a money, which will be returned you on application, providing entire satisfaction is not given.
